Part B. CV SUMMARY

Raquel Tarazona Lafarga is Professor of Immunology at the University of Extremadura. Degree of Medicine at the Complutense University (1986). PhD at Complutense University (July of 1992). Predoctoral Fellowship for the Training of Research Staff of the Ministry of Science and Education (1987 to 1991) with 2 short stays at the Moredun Research Institute in Edinburgh. Marie Curie postdoc contract from the European Union (1993 to 1996) at the National Institute for Medical Research (Mill Hill) in London. In October 1996, she obtained a "Reincorporation Contract" from the Ministry of Education and Science (area of Immunology at the University of Córdoba). From 1999-2002 she obtained a FIS contracts for researchers, currently termed Miguel Servet contracts (Immunology, Reina Sofía University Hospital in Córdoba). In 2002 she obtained a "Ramón y Cajal" contract from the Ministry of Science and Technology in Spain. In the same year she obtained the position of "Professor Titular de Universidad" in Immunology and in August 2018 a Full Professor position at the University of Extremadura. Since 2000 and continuously to the present, she has been Principal Investigator of 6 projects

of national calls; 7 projects of the Autonomous Community of Extremadura and 4 agreements with companies. She is the coordinator of the Research Group "Tumor Immunopathology" from Junta de Extremadura.

She is co-author of 2 national patents (2222769 and 2198203) and one of European scope (Application Number: PCT/EP2012/054251). At the University of Córdoba she participated as a member of the research team led by Prof. Rafael Solana in three European calls, ImAginE and T-CIA (coordinated by Prof. Pawelec) and OISTER (coordinated by Prof. Schadendorf).

In recent years her research has focused on the analysis of the interactions between tumor cells and NK cells, analyzing inhibitory receptors such as TIGIT, TIM3, LAG3 and PD1 expressed on NK cells and cytokine-induced cytokine (CIK) cells in patients with acute myeloid leukemia (AML).

She has a positive evaluation of 5 six-year research periods (1990-2020). Co-author of 79 scientific articles in indexed journals (40 as first, last or corresponding author). Publications 2009-2020: 49 (23 as first, last or corresponding author). Book chapters: 10. Direction of doctoral theses: 4. ISI Web of Science bibliometric analysis (December 06, 2020): **h index:** 30; Total number of citations: 2983; Average number of citations per item: 35.23.
